## Our promise to our online trainers

\* If you acquire a seminar participant who registers newly on edudip or Sofengo through your affiliate or academy link, you keep 95% of the webinar revenue, also of all future webinars. To cover costs for payment processing and invoicing we will retain only 5%. If edudip acquires a participant for your course, you retain 70% of the booking amount. However, the minimum fee per participant is 0.60 EUR. The provisioning is the same for paid recordings. The only exception is the sale of paid recordings after the termination of a premium package: With a free package a provision of 50% accrues for sold recordings.

The payout of your revenue already takes place after one week. As a trainer you don't need to worry about anything and can plan and hold your webinar.

## Legal notice

\* The prices for package bookings are shown inclusive of VAT. Payment will be made in Euro. Within each booking the sum over the entire period is due at the beginning. The premium membership can be terminated until 7 days before the automatic extension of your package.

Direct debit is only available for giro accounts run in Germany
